

ULR Series

Ambient Temperature Range: -30°C ~ 170°C

ULN Series provides fast response due to the shape of its sensing surface.

Its specially-designed mounting structure makes it an excellent temperature-sensor for dehumidifier, refrigerator, and air conditioner.

Applications

- Dehumanize
- Air conditioner

Features

- Epoxy Molded
- Hermetic Surface
- Easy Mounting to Pipe
- Lead Wire and Bracket Available

Specifications
