

UTY Series

UTY Series is Similar

Heat conducts through the metal mounting plate to trigger the thermostat. Provide good and stable thermo-temperature control and minimum EMC interference.

Has been widely applied in kitchen cooking products such as waffle maker, rice cooker, deep fryer and oven.

Specifications

Rating	125V AC, 15A / 250V AC, 10A (Resistive loading)
Maximum rated temperature	260°C
Maximum ambient temperature	T300°C
Endurance	100,000 cycles
Hi-pot	1500V AC 1 min / 2500VAC 1 min
Safety Compliance	UL/CUL/VDE/CQC/CB/CE/RoHS/REACH

Applications

- Vacuum Cleaner
- Boiler
- Electrical Stove
- Vending Machine
- Copy Machine
